SEVERE ACCIDENT. - Mr. Chas Aultman, tinner for J H Sampson while working upon a building at the lepot yesterday afternoon was throwi down by the slipping of a ladder, breaking both bones of the right leg near the ankle. He was carried to his room at Mrs. Wells' boarding house and made as comfortable as possible.

A SPRING FAIR -As has been bertofore announced in The Ypsilantian he Ann Arbor Agricultural Society are arranging to hold a Spring Fair on their grounds, commencing next fuesday, May 31, and continuing three days. All the prominent features of fall fairs will be presented. A cordial invitation is extended to Ypsilantians 30th, 1812. In the spring of 1826 and to residents of this portion of the

OUR ALDERMEN ABSENT - The City Council accepted an invitation ex tended by the Jenney Electric Light to, and started yesterday morning or a visit of inspection, to Bay City and Saginaw, and their tour may include Jackson. They will inspect the electric light plants of the cities they visit and decide as to the wisdom of adopting the Jenney or some o her system of electric lighting for Ypsilanti. They expect to return home this even

GETTING IN HIS WORK -The merenry stands at 50%, this morning as the sequel of a widespread series of storms during the last three days, and Prof. Mansill is neither forgetting nor forgatten. Last Friday our thermometer registered 93° at 1 o'clock, 97° on Satur day, 91° Sunday, and 93° Monday; Britian was overwhelmed in a terrific ment. storm, with extremely low temperature. The rains here were most grateful to

the friends of the old favorites hereof their famous concerts at the Opera House, next Saturday evening, May 28 The pleasure-giving character of the entertainment given by the Jubilee Singers is so well known that further r ference to it here is unnecessary It will be especially delightful for ladies and children, and indeed for all who One ver enjoy cultivated, artistic music, together with the melodies of the cottonfield. Seats at Dodge's.

BURGLARS.-Mr. E. M. Comstock was awakened at a few minutes past one o'clock, last Sunday mo ning by noises in his kitchen which at once assured him that burglars were in the house. He proceeded to investigate the source of the sounds, but the noise of his movements was sufficient to frighten away the marauders. The evident purpose of the burglars was to secure money or other valuables, as May 21, 1887. their opportunities to secure eatables and clothing were not taken advantage a half miles south of town, was thrown of, and consequently nothing was lost from his buggy on Congress street, by reason of their visit.

THE MAY FESTIVAL -The arrangements for the May Festival to be given by the Young People's Society of the Methodist church, next Tuesday evening, May 31, are completed, and the program to be presented gives promise of an entertainment that will easily surp se even the best of the several to give a free concert Wednesday evensimilar festivals given in the past by ing, and the enjoyment derived from this society. The society will be as- their playing by the crowds that filled sisted by a number of the most talented the principal streets was sufficient evivocalists and instrumental musicians dence as to the character of the music in this city, and also by Miss Grace given. She bore her long illness with that the Fisk Jubilee Singers give one patience and was perfectly resigned. She died the death of the Christian. Funeral services were held at Cherry Hill, and were largely attended.

One less at home!
Again the circle broken—a dear face
Missed day by day from its accustomed place
But cleaned and saved and perfected by a race
One more in heaven.

One voice of welcome hushed for evermore; One farewell word spoken; on the shore Where parting comes not, one soul landed

more. One more in heaven. One less on earth!

Its pain, its sorrow, and its toil to share; One less the pilgrim's daily cross to bear; One more the crown of ransomed souls to wear, At home in heaven. One more in heaven!

Another thought to brighten cloudy days,
Another theme for thankfulness and praise,
Another link on high our souls to raise
To home and heaven.

One more at home!
That home where separation cannot be,
That home where none are missed evernally
Lord Jesus, grant us all a place with Thee,
At home in heaven.

THURSDAY, MAY 26, 1887.

#### A Celestial Sunday-School.

There is no doubt about a Chinese Sunday-school being an interesting place to visit. There is one of them in Sixth avenue, conducted by the Baptists. A Mail and Express reporter strolled in there a recent Sunday after-There were about seventy-five pig-tailed Celestials seated demurely side by side. The pupils listened to the proceedings with inflexible gravity and sang with earnestness and considerable melody.

A Sunday-school hymn rendered into laundry English is a curious thing to The first song they rendered hear. was the good old hymn, "Shall We Gather at the River?" As sung by the Mongolians, it sounded something like this:

Shall we glathel atter livel, Whale blight angel feet have tlod, With its clystle tide folevel Flowing by the thlone of Glod?

After that the teachers began their individual labors with their almondeyed pupils. The raw recruits were first taught to read. Those who had been there before received instruction in the foundation of the Christian religion.

It was hard work, and the teachers did not make progress rapidly. An excellent and elderly lady, who has given the best part of her life to this kind of work, struggled with the Oriental density of Sam Wind and Charlie Lee, two Bleecker street Celestials She was trying to teach them the lesson of Divine forgiveness.

"Now, Sam," she said, with an encouraging smile, "what would you do if your friend Charley should do you a great injury—should come into your laundry, perhaps, and throw dirt all over your clean clothes?"

'I cluttee his healt out, all same Melican man," said Sam, proudly.
"What does g-r-i-e-f spell?" said a hard-working young woman who was expounding the mysteries of the English language to Wun Lung and Wah

"Gleef," said Wun, promptly.
"No, no. Like this," said said the teacher, opening her mouth to show how the Caucasian overcomes the troublesome 'r.'

Wun opened his mouth and took spair and began to read the story of the Prodigal Sun, explaining as she went along.

She followed the adventures of the prodigal with interest. They could nderstand most of it, especially the reference to the fatted calf, as the Chinese are fond of roast veal. when the teacher made the final application, a look of blank and unrelieved stupidity overspread each face. That was evidently too much for them.

#### Kate Chase at Home.

Washington society sees but little of Mrs. Chase, says a New York Mail and Express letter. She is some distance out of town, although from her library windows the dome of the capitol can be seen looming up a mile away. She has the saving adabtability and pretty and obliging of shopwomen, of all people of sense. She is inter- and the place itself was a pattern of ested in her gardening and in her neatness; but the officers' wives did not daughter's education. She rides and care to go and buy their thread where drives and fills up a life that would they were evidently interrupting a flir-seem singularly empty. She makes tation, and so the business continued to no apology or explanation of her fall off, and Mrs. Evans began to get over her silver thing you gave her, altered style of living. Probably she inherits her father's incapacity for moneyed affairs. Whatever might have been said of her, the invincible courage she has shown in misfortune commands respect. The old house is full of relics of splendor. Some of the finest carved mahogany in this country is in the big, gloomy dining-A mirror over the fireplace room. has a frame that would put everything at Sypher's to shame, and a sideboard, a buffet, and a great carved sofa, brought from Italy, are fit for a palace. In the hall is an ancient carved marriage chest that is bewitching to a lover of antiquities. Everywhere shabbiness and splendor go hand in hand, but the shabbiness is not vulgar nor is the splendor obtrusive. It would be brave to rashness for one to pity Mrs. Chase for her surroundings, or for anything else about She makes a certain fitness and seemliness for herself out of it all.

#### Japanese and Stair-Climbing.

There are many funny things in New York boarding-houses, as most people know or believe, says a writer in Brooklyn Citizen. But I am told that among the most amusing incidents are those afforded by establishments where Japanese students are domiciled. Hundreds of these young men are in New York in attendance at the various academies and colleges, private and public. They have been sent here to get an "American" education, and most of them have taken the higher branches of mathematics and engineering. Few of them seem to care for the classical course, or for any language but English. The funny part of their life is learning to go up and down stairs. It seems that in most parts of Japan, particularly the rural regions, stairways are unknown. The houses, too, are seldom more than two stories high, and access to the upper floor is almost universally had means of a ladder, upon which the Japanese run like sailors. Hence, when these young men come to New York and are lodged in boardinghouses their apartments are generally in the third or fourth story. To reach their rooms they are compelled at first to go up very cautiously and with the aid of the balustrade. Some do not even hesitate to go up cat fashion, on all fours, from step to step. The trouble is that they have not learned to balance the body so as to ascend and descend as we do. Our agility in going up and down stairs is really an acrobatic feat, but we are unconscious of it because we have practiced it from childhood. Now, the young Japanese are determined to perform this feat, and I am told that they often spend hours in the most persevering practice to acquire so simple an accomplishment. You can fancy what a ludicrous scene they make. They soon learn to go up the stairs. It's the coming down which gives them trouble. The decensus is not facilis in this case. The retro rade passus constitutes the labor and the opus. When the novice essays to come down stairs his companions water and guy him as he totters in the effort to keep an upright position. When, for any reason, he is in a hurry, he has to do the sailor act and come do yn on all fours, she knew he wouldn't go.

THE SISTERS.

April, with her tresses wild Kissed by the winds; pure, undefiled-A maiden she. Her reign is o'er, Now standing at the half-closed door She stretches forth her hand to May, Who comes to supersede her sway.

"My crown is thine; my scepter take And wield it gently for my sake,"
Cries April sweet. "I leave thee now,— The crown of summer on thy brow. I go to join the flood of years; You have my blessings -- April tears."

Then May, the younger sister fair, Bedecked with flowers,—a conqueror— Assumes the throne. Yet not in pride, For, kneeling at fair April's side, She lays her head upon that breast And vows to keep the last behest.

"Gladly you go, O sister dear, To a brighter land,—an endless year In Edenland. Thy legacy I hold. And, as each rosebud doth unfold I'll teach then of my sister fair Who lives, and waits them over there." -[Gay Davidson.

#### A Charming Love Story.

There was no doubt about it; John

Weare was perfectly wretched last night. He had quarreled with Jennie Bell, and he wasn't going to make it it any longer. He didn't care if she was at my back; it's too bad, all alone of pretty; that was no reason why she that Captain McGee, too. And the should let half a dozen fellows at a time | fruit in the garden (of the cottage) all hang around the shop or stroll in one at ripe and no one to pick it." a time and, leaning on their elbows, young fellows, who only did so for the felicity of being served by Mrs. their own idle amusement, and would Evans. no more dream of marrying her than be sure, he was only a common cavalry soldier, but then he had been in the for her sister. service a good many years now, had an excellent character, and a good able. trade at his back, and moreover, his father had died not long since, and there was the cottage all ready for Jennie to walk into, and they might settle back, in his excitement. down at once if she's only sensible. Jennie acted as shop woman for her sister, Mrs. Evans. A very poor little shop it was, very small and badly stocked, for Mrs. Evans had only managed to get a few pounds worth of things with what had been subscribed long breaths and labored hard, but the for her in the garrison after the fever sound wouldn't come, and after a had carried off her husband. The while the teacher gave it up in despeculation answered pretty well at first, for many of the officers' wives, knowing what an industrious woman Mrs. Evans was, made a point of buying their tapes and cotton, and sticks of sealing-wax of her. Then Jennie's him. pretty face was seen behind the counter, and the shop was filled from morning to night with officers and frisky young cadets, and the original customers took flight—though Mrs. Evans did not know it, for she, believing the business was safe in keeping of Jennie, worked hard at the dressmaking (for she had three children to support, and the shop alone would not do it). The officers were not profitable customers, for they only went to flirt with he added. "Let me look at your

She had accept. been only too delighted, after her vonshire and live with her sister at fond of her sister, but also because she had wished many times to see John Weare again. She had made his acquaintance when her brother and he for they had been in the same regiment-were stationed at Plymouth, and she had paid them a flying visit with her father. John had told her then that he was tired of the service and wanted to settle down, and she inwardly thought he could do no better than ask her to settle with him. He had been very attentive when she came to Woolwich, and gradually established himself on the footing of a over till he found the shop always filled with the officers and cadets. At first he was shy of appearing before his superiors, then he got jealous and at last angry, for he felt and knew that they meant her no good, and, besides, it was doing real injury to the business of the shop. At last he spoke his mind and told the coquettish Jennie what he thought, and was snubbed for his

"If you think I don't know how to take care of myself, Mr. Weare, you are mistaken, and I don't want any one to tell me what's right or wrong. I know for myself."

"Well, Miss Jennie, I didn't mean to give offense. I only told you what

I thought." "Then you might have kept your thoughts to vourself," she said, with a little toss of her pretty head-"unless they had been nice ones," she added. He heard the aside, and picked up his

courage. "It's awfully hard, too, when one that cares for you really can't get near you," he pleaded. Just then Jennie caught sight of Captain McGee, a tall and handsome man, with long whiskers and a red nose, coming in the direction of the shop, with a big bunch of flowers in his hand. She had heard John Wear's last words, but was secretly of opinion that "he ought to have come up to the scratch before," so she thought a little jealousy might do him

"Oh! here comes Captain McGee,'

she added in a delighted tone. "Well, he's just the biggest blackleg in the service, Jennie, and if you take my advice you'll send him off sharp. "I believe you are jealous, Mr. Weare, and telling stories about the Captain; he is always very polite to me," and she smoothed her pretty hair

and arranged the trifles on the counter. "Oh, he's polite enough, no doubt. "And he's bringing me some flowers." "Now, look here Jennie, are you go-

ing to take them?" "Of course I am."

"Well, then, good-by." "Good-by," she laughed. Of course

"Jennie, he'll be in directly, and I shall be off, but you must choose bekeep on talking to him I shall never come in the place again, so which is it to be.'

"The Cantain" "But I am not joking, I'll never see von again."

"No more am I joking, so good-by." "Good-by"—and he went.

He kept resolutely away for a whole month-never once went near the place. If Jennie wanted him she might send for him, or get her sister to invite him to tea, as she had done before. But John Weare was not sent for, neither was he invited to tea, and his spirits began to wax low. "If she'd cared about me she'd have

got in my way somehow before thistrust a woman," he thought. The idea of not being cared for was not cheerful. That night he strolled carelessly by the shop, but on the opposite side of the way. Nothing was to be seen of Jennie. He walked on in a brown study, then crossed over, and went deliberately by the shop, with

only one eye, however, turned in its direction, but not a sign of Jennie. He went back to the barracks in a deected state of mind. "It's an awful pity-such a nice girl; and there's the cottage all ready for The fact was she gave him too her to step into, and me ready to remany airs, and he didn't mean to stand | tire from the service, and a good trade

The very next morning John Weare chatter and smirk and smile over the walked deliberately into the shop and counter, cadets and officers too, wild asked for a penny newspaper, and had

"Quite a stranger, Mr. Weare," she they would of inviting her to a ball said; but that was the only remark that was coming off next month. To she made, and for the life of him he could not screw up his courage to ask

That night John Weare was miser-"She can't care a rush for me." he

thought, and marched all over the town, and nearly to Greenwich and The next day was a lucky one for John. He came across Bibbs. Bibbs

was Mrs. Evans' oldest boy. No one knew what his real name was, or why he was called Bibbs; but he was never called anything else. "Bibbs," said John Weare, "come and have some fruit;" and he carried him off in triumph to the cottage and

speculation answered pretty well at stuffed him with gooseberries till he couldn't move, and with black currants till his mouth was as black as a crow. Then he carried him inside and stood him on the table and sat down before "How old are you, Bibbs?"

He thought he had better begin the conversation with a question. "Five and a half. Is that your sword up there?"

"Yes. Who gave you those bronze shoes, Bibbs?" Now he knew that Jennie had given

them to him, but he so wanted to hear her name.

sword now." "Where's she going to?" he asked in consternation.

"Devonshire. Do let me try on your sword." Why is she going?" he asked, with

a sick feeling at his heart. "She's ill, I think; and she's always crying now; one day she was crying and kissing it like anyt

had no idea that she had anything to do of about the size of a shilling, which anxiety for the other three sons, and with it or she would have sent every he had bought at Charlton fair last the army it come outen Maryland and one of her admirers off at a pace that October and timidly requested her to then pretty soon we hered of a big

John Weare jumped up and showed brother-in-law died, to come from De- Bibbs his sword, and carried him on his back all over the place, and en-Woolwich, not only because she was treated him to have more black currents in his delight. But Bibbs declined.

"Aunt Jennie's going to bring me some from Eltham, to-night," he replied.

So Jennie was going to Eltham, was she.

John Weare took Bibbs home, and on his way presented him with a white wolly lamb that moved on wheels and squeaked, and a monkey that went up a stick in being gently pushed.

"Crying over her silver thing!" said John Weare. "I'll go and hang about and sure enough the letter brought the the Eltham road till I see her and beg her pardon."

And he went, and Jennie met him and pouted, and declared she hadn't once thought of him, and then broke down and cried. And John begged her pardon, and declared that he had been a heartless brute; and then Jennie contradicted him, and said it was all her fault, and told him how Mrs. Dunlop, the Colonel's wife, had one day walked in and told her, in the kindosi possible manner, that she was spoiling her sister's business, for the ladies who had been interested in her welfare kept away because of Jennie's flirting propensities, which filled the shop with idle officers, who were always in the way; and how she had been so ashamed and wretched, and so cut up at the de sertion of John Weare, that she had

determined to go back to Davonshire. "But you won't now?" he said, as they leaned over the stile leading to the Eltham fields. "You'll get ready at once, and we'll be married as soon as possible, before the fruit in the gar-

den is spoilt?" It took a long time to talk her into it (about three quarters of an hour) but then she was very happy at heart, and chattered like a young magpie, and told John how she had snubbed Captain McGee, and had thrown all of his flowers out of the window.

"And it really was all through that dear Bibbs that you waylaid me tonight?" she asked.

"Certainly. "Why, but for him I might never have seen you again?" "Perhaps not."

"I'll give Bibbs a regular hug when I get home," she thought. And she did: and the day before she was married she bought him a rocking-horse, which he delights in to this day.

D. O. Mills, the father-in-law of Whitelaw Reid, of the New York Tribune, has bought a gold mine in Alaska. A gold mine is a very convenient thing to have behind a news-

paper.

WAR IS A BAD THING.

tween him and me. If you are going to The Mother Who Patiently Waited for from a distant point of the county, Her Boys Who Never Came.

> "People talk about war with Mexico and war with England, and the newspapers print pleasant incidents and lorious achievements of the noble soldiers who figured in the late War, which is all well and as it should be. but," said old man Plunket, looking over his spectacles, "thar's none of 'em what knows what war is lessen they's been thar.

> "I tell you, stranger," said the old man, "you may read and you may look at pictures of battles, and you may go to all these 'campments and see them have their sham fights, but you won't know a bit more about what real war is than a man who would suppose your Gate City Guard could thrash old England. War is a bad thing, mister, war's a bad thing, sure!"

"Do you see that house up the road?" asked the old man, pointing with his finger. "Well, stranger, right by that window thar by the chimney is a vaeant chair. Not mor'n a week ago the dear old woman who sot in that chair, right by that window, with her eyes looking right down this big road ever first crusaders copied from the Sarasince Lee's surrender, was buried over yonder at the church, and thar's not a work. man nor woman in this settlement but what has shed a tear over the grave whar she lies."

The old man wiped his spectacles with his red bandana, and with his head bent and his eyes cast down shook his head and muttered, "War's a bad thing, stranger; war's a bad thing.

"That old lady," continued the old man, "had four as fine boys as ever shouldered a musket for the Confederacy—and that's saying a right smart. They all went to Virginia, and one by one they were killed till there was only one left. Tom, he was the oldest, and I never shall forget when the news came that he was killed at Seven Pines. Squire Adams he lived cross over on the other road vonder, and the mail for the settlement went to his house during the War, and the neighbors would get their letters from thar. We'd done hered thar'd been a big fight at Richmond, so I was settin' right here in this plazer smoking after supper and I hered Jim, one of Squire Adams' niggers, start from the Squire's house down the path that led across the fields to you house, hollowing and blowing his quills, and I told my old oman thar was a letter for our neighbors. Jim, he went on down the path, and directly he crossed over the branch yonder, and the sound from his quills came up the branch, and I could hear the doleful tune he was blowing as well as if I'd been in 200 yards of him. I followed the sound of his quills till he struck the path through you pine thicket, and then he quit blowing his quills and sung:

"Lown in the cornfield, Here dat mournful sound, All de darkies am er weeping,

For massa's in the cold, cold ground. "I told my old 'oman I was afered that nigger had bad news for our neighbors, and so it was, for no sooner than he'd got to the house I hered screams and hollerin, and me and the old 'oman put out over thar, and what bad thing, mister, war's a bad thing.

\* \* \* \* \* \* more fighten and the army it went as you discovered, for biscuits are nto Maryland and our neighbors they'd | merely unfermented bread. The "silver thing" was a little heart sorter calmed themselves in their fight in Fredericksburg, and a few nights after I was settin here in this piazer alone, and I hered Jim start from the Squire's agin, and as he went down across the field yonder he was singin'

"I cannot work until to-morrow, Because the tear drops flow; But I'll try to drive away my sorrow,

Pickin on de old banjo. "And then he'd blow his quills and then sing another verse till he'd get over yonder to our neighbors, and then listened to hear any weeping, if he carried bad news, but thar was no fuss this time, but I went over thar, me and the 'old 'oman,' and when we got close to the house we seed the spinnin' wheels nor the loom warn't running, and we knowed something was wrong, news that two of the boys—the two middle ones, Bob and John-had been illed in the battle, and there was only one left-William, the youngest, and that poor family was too sade to weep; they couldn't cry; they were huddled lown in the middle of the room on the floor, leaning one upon the other, and not a word spake they. I tell you, stranger, war's a bad, bad thing.

\* \* \* \* "Well." resumed the old man, "the War went on, and at last news came that Lee had surrendered and that all the soldiers would soon be at home. My neighbors over thar sorter brightened up then, cheered with the hope of soon having William with them. The railroads 'twixt here and Virginia was all tore up, so the boys all had to walk home and get home the best they could. They paired off in little squads and started, every man for himself, and pretty soon this one, and then that one, and then another, according to their ability to make the trip, came in, and several brought the news that William was on the road and would be here at any moment, and that dear old mother, who we buried last week, took her seat by that yonder window every morning, and thar she set watching down this road for William, her baby poy, who has never come yet, and never will come. She set by that window over twenty years, waiting and watching, with a ball of thread in her lap and a half finished sock in her hand that she held to all this time, never saying a word, but looking down the road so anxious, O, so anxious. Last week about 3 o'clock one day she raised her arm and with a cry of joy: 'My boys! O, my boys!' she fell over on the arm of the chair, dead. War's bad, stranger, very bad."-Atlanta

A Juror and Her Hoy. The Woman's Journal gives a very interesting account of the experience gained in Washington Territory, where women sit regularly as jurors. The writer says: "Some features of the en regle in New York society circles comical. Once, when the jurors re. Not a bad old homestead, that

ported in attendance at the opening of the term, one among them, summoned was a woman somewhat lank in person and unfashionable in attire, who held by the hand a small boy, very round and rosy, of about 3 or 4 summers. Nobody supposed she would be allowed to remain with that small incumbrance, but the judge told her if the child behaved well she might keep him with her. So, when she was drawn (which was frequently) she always took the end chair of the back row of seats, and the round little boy took a tiny rocking chair which the sheriff had kindly sent down from his own home, and here the little fellow would sit through the long hours, calmly rocking and sucking his thumb, or looking at a picture book, seldom sleeping, apparently attentive to what was going on,

Making Food From Grain.

or distracting her attention.

Bread is an invention of the Greeks and passed from them to the Romans. A round disc of bread was for many centuries the substitute for plates. After the dinner these plates were distributed among the poor.

The hand mills were the only tools to squeeze flour from grain until the cens the art to let windmills do the

preserved in the passover cake of the ews and the "knakel-rod" of the broken, not cut.

baked in the size or thickness as it is at present, but in thin, smooth cakes, and could therefore, easily be broken. This is the origin of the saying: "To break bread with him or her.'

Most of the ancient nations ate biscuits under special conditions: chiefly in war, whether naval or military, or on long journeys by sea or land. To the Greeks they were known as arton panis nauticus, or capta, chiefly used, as its name implies, for nautical purposes.

It is not a little odd that the word "bisquet" or "biscuit" embodies the process by which biscuits were made from time immemorial to within the last century, if not, indeed, later. Bis, twice, and coctus, cooked, shows that they were twice baked, and although the double process has now been discarded yet the name is retained.

Already, in the times of Pliny, the naturalist, the Gauls made use of barm to render their bread lighter. In the seventeenth century the doctors in Paris pronounced this as detrimental to health and the use of barm was prohibited. Out of this arose between doctors and bakers a long and serious lawsuit which did not lead to any result. Fashion here settled the question. To day nobody considers barm as unwholesome.

At what period of man's history the ightening of dough by fermentation was first adopted no one of course, knows. It is, however, certain that cakes made of nothing but meal and water and then baked are very much older. Fregments of unfermented cakes were discovered in the Swiss I seed then makes me know war's a lake dwellings, which belong to the neolithic age, an age dating back far beyond the received age of the world. "Then," said the old man, "thar was This is the earliest instance of biscuits

## The U. O. M. G.

I am about to give away a secret. I think the way girls talk of young men behind their backs is shameful. Young men never dispraise girls until they are jilted and that feeling only lasts about forty-eight hours, because another girl turns up. When a fellow gets discharged from his employment two or three times he finds it very hard to get anybody to have confidence in him. But he can be kicked out of a whole row of houses, one at a time, and the girls in the next block will reach for him all the same. I know a fellow who has been jilted twenty-five times in different neighborhoods, and he is now in tow with about half a dozen girls. Those girls all have a kind of secret code. You know how it is. You are introduced to a girl. She invites you to call. You call. She invites you to a party. You go. She introduces you to a whole circle. That whole circle discusses you, calmly apportions you to three or four; they gradually reduce themselves to one. Then you're lost. She wearies of you and you get kicked out of the circle. Well, all those girls have discussed every one of your young men friends the same way. This is what a cynical girl told me. I don't know of my own knowledge. But talk of trades unions and Knights of Labor! Their organization dwindles into absolute crudeness when compared with the U.O. M. G. (United Order of Marriageable Girls.) I don't say this is exactly the way the thing is done; but it's the principle condensed. They have a kind of secret register, and they have you all down fine. For instance, this s the idea:

Name-Henry Jones: good looking: 25 years old, dresses well; good for ice cream any time; very soft; melts at 60 degrees.

William Smith--Very forward:plain, but attractive; very conceited; thinks everybody's in love with him; boils over at about 100 degrees; champagne and bird.

Alexander Thompson-Seventeen; good looking boy; very young; boils at 25 degrees.

John Jenkins-Fine looking; clever; hard to deal with; dangerous; boiling point not yet discovered. James Johnson-Very inflammable; simmers at 50 degrees, boils at 60 de-

grees, explodes at 75 degrees. That's the kind of analysis. But please don't believe you have no chance because the girls guy you behind your back. That doesn't mean anything bad. It means they've got

you on the list .- San Francisco Chron-

#### Where Irving is Buried

From a paper by Clarence Cook, accompanied by a protrait, in the Century, we quote as follows: "I confess I heard not without a secret pleasure that the relic-hunters so chip and hammer the stone that marks Irving's grave as to make its frequent renewal necessary. It did not seem to me a grievous wrong, nor in any true sense a profanation of the grave, but rather a testimony to the lovableness of Irving's character, and an evidence of the wide extent of his fame, that, from filling the circle of the educated and refined among his countrymen, has now come to include that stratum of our common humanity which has only instinctive and, so to speak, mechanical ways of expressing its feelings.

"It would not have been easy to find and never once troubling his mother a place more in harmony with the associations that gather about Irving's name as a writer than the spot in which he is buried. Even to-day, with all the changes that have been brought about by the growth of the neighboring settlement, the spirit of peace and quiet that used to brood over region hovers there undisturbed. ng's own words, in the 'Legend of Sleepy Hollow,' describing the gravevard, the old church, and the stream that plays about its feet, reflect with the faithfulness of a mirror the scene

as we behold it to-day.
"Here is the church, a small build-The old shape of bread has been ing with rough sides of the countrystone, surmounted by a picturesque roof, and with an open bell-turret over Swedes. This last, almost as brittle which still veers the vane pierced with but not so light as biscuits or rusks, is the initials of the Vrederick Felypsen who built the church and endowed it Bread was not cut at meals, nor was in 1699. In our rambles about the there any meal for it, for it was not grave-yard we used to find the bricks of light-colored clay, brought from Holland, and of which, so tradition said, the church had been originally built, or which had, at any rate, been

largely used in its construction. 'The church was seldom used, except in the summer-time. On communion Sundays the handsome seventeenth-century Jacobean table of oak brought from Holland, where plenty like it may still be found, was set out, dipuron, that is, "bread twice put to the fire," while the Romans had their of silver 'presented by Queen Anne,' as the formula goes, that used to please my childish taste for things that had about them the flavor of old days.

> "The same budding taste for antiquities led me and some of my schoolmates to the old grave-yard, where we hunted up the oldest tombstones, scraping off the moss and lichens to decipher the names and dates, and enjoying many a laugh over their carved ornaments, scrolls, and cockle-shells, and sturdy, dew-lapped, Dutch cherubs, with their stumpy little wings scored like checker-boards for plumage. Many of these grave-stones were said to have been imported from Holland by the early settlers, like the bricks of which the church was built, the table in the church, and much of the furniture to be found in the farmnouses of the country-side, chairs and tables, cupboards, and even looking-glasses. The carvings, memorial verses, and scripture-texts upon these tombstones were cut by the more skilful workmen over-seas, and the names and dates were filled in here at home as occasion called."

> A curious relic was discovered a few days ago near Phœnix, Arizona, by a farmer while digging a well on his ranch. At about nine feet below the surface he came upon the skeleton of a man, the bones of which, however, fell to pieces when he attempted to move them. He has no doubt that this prehistoric citizen was a giant, as the thigh bones were nearly four feet long and the feet were more extensive than those of the proverbial St. Louis girl. Under the body was a large and heavy war club, made from mesquite or iron wood, and this was in a state of perfect preservation. It is now on

## A NEW ERA! THE GRAPE CURE. SAL-MUSCATELLE

The crystallized salts as extracted from grapes and fruit; a most wonderful product from Nature's laboratory; the greatest sovereign preparation everplaced before the American public.

Sal-Muscatelle is Nature's own product; it supplies to the weary system the want of sound, ripe grapes and fruit; it keeps the blood pure and the brain clear; is a natural blessing to the ragged-out and weary, an imperative companion to business men, ladies and children. Have it in your homes, travels, summer resorts and seaside cottages.

The brook that stumbles o'er the stones Is wid'ning all his silver scope, And sings, with April in his tones,

A linkling song of youth and hope. He runs to meet the glancing rill Amid her cresses, cool and green,

Who lingers smiling, coy and still,

Half-veiled beneath a cowslip screen. Just here the mountain currant grows With spicy odors rich as meth; Just here the slender blood-root blows, And shy arbutus wandereth.

When Autumn winds his mellow horn, With pensive sweetness in its tone, And leaves are flitting down, forlorn, Then pace the thinning aisles alone.

But when the bluebird wins his mate, And singing swells the thrasher's breast, Then saunter down the lanes, elate, Beside the friend that loves you best. DANSKE DANDRIDGE.

## THE BASILISK.

A STORY OF TO-DAY.

CHAPTER XXXI-CONTINUED.

EXPECTATION.

Sl.a paused, went on a few paces, and suddenly turned and went back to the house whence she had emerged. She dis appeared in the doorway.

quickly covered the intervening ground, and reconnoitered. I found myself in front of the gate of a courtyard. On the left hand side was a dark doorway, up now and then to impress the points of her three or four brick steps. A feeble light flickered in a window beside the door. High walls with only a few windows, bounded the narrow yard. I had scarcely a minute to make these observations when caused me to draw back into the shadow One voice was the voice I knew so wellthe voice of Giulia Beaufoy. The other was the harsh, croaking, wicked sounding voice of an old woman.

"A dix heures," said the Basilisk. "A dix herres," repeated the other voice anything about it!"

in a tone of malicious obsequiousness. Then the majestic figure of the Basilisk again came out, looking supernaturally tall and imposing in the dark robes and and grinned ghoulishly. white head gear of some religious order. She was followed by a broad shouldered but bent old woman, who nodded, and leered, and rubbed her skinny hands to gether until Miss Beaufoy had turned a neighboring corner. She then turned back into the house and hobbled up the steps. The rough tones of a man's voice

I waited a few seconds and then stepped air of suspicion.

"Very well," I said. "But Georges—is out and examined the house. It was high and dilapidated in appearance. No lights were visible in the front except in window at the very top. As I looked, a figure appeared between the window and the light, the casement was softly opened, and a girlish form gazed out from that young moonlight. I endeavored to read the features. The light was too uncertain and the distance too great to allow of my identifying her; but I had a sudden and great hope that it was none other than my lost love. The thought staggered me. I endeavored to attract her attention, but at the first sound the casement was quickly closed, and the shadow disappeared from the window. I watched a little while lenger, but the notice attracted from passing roughs accepted; and, with profuse thanks, she ushered me out once more into the street. ocunselled prudence, and I went away full of vague hopes and fears, resolved to be on the watch at ten o'clock. Come what neight, I would solve the mystery of the Basilisk's appointment. so strangely become possessed. I found myself once more in a cheerful, well light-

#### CHAPTER XXXII.

Some little way I walked with no fixed | The revelation of the plot by Mme. Delplan. The sudden hope inspired by the bruyck ceased to be so very surprising prospect of action soon waned and exprospect of action soon waned and ex-Was the form I had seen at the window indeed Mary Fortescue? If I been arranged by Flowitz and Miss Beau-encountered the Basilisk at her ten o'clock foy together. His arrest was evidently not rendezvous, should I be any nearer the known to the Basilisk at the time of her realization of my hopes? At least I could visit to her evil ally, and that lady had, trace her movements, and so possibly get a clue to the place where she had taken Mary, if it should prove not to be the house | did not know, assumed that the stranger she had made the appointment with the hideous old woman. Taking a turn to the right I found myself upon a small bridge, which spanned a dark narrow canal bordered with high houses, sparsely lit here and there by fantastically disposed patches of dim lamp-lights; here longed in i regular lines on the dark water, where a window in the lowest story almost met the surface of the canal; there set like a bleared eye in the middle of a towering gable; zigzagging along on the levels of the various stories, with frequent gaps of utter darkness. As the still freshening wind came sweeping along instrong gusts, I could hear the water lapping at the slamy walls, clammily pandering to secret crime, and solicitous for the custody of corpses. There was in the middle of the parapet of the bridge a lamp, which flickered and flared in the gusts of wind. By ing the half-hour, I again entered the its light I could just see that the dark street where Mary was kept a prisoner. mysterious object by the narrow wharf As I approached the door it flashed upon close to the bridge was a long narrow me that the Basilisk might meanwhile barge. At the footof the slippery looking steps, which went down from the bridge to coming to arrange some modification of the wharf, was a broad built decrepit look-ing wherry. The clouds, which were fast struck a chill to my heart to think what piling up before the wind, had now hidden the moon, but the still varying denseness disappointment. But, in any case, there of their folds caused a constant heaving of was no time to lose. I went into the dark the darkness, like the struggling respirations of nightmare. The influence of the knocked at the door. The voices which scene was weird and oppressive. It might be that these tall, silent houses were the clatter of sabots over the brick floor, and homes of simple honest folks; that in those dimly lighted rooms the children of toil were contentedly enjoying their humble evening meal; that the wicked looking to you. water was a wholesome byway of honest industry. But I looked up the long rows of darkling houses, and knew that in one behind her. of them the wiles of the Basilisk were at work; that there, in all likelihood, Mary was immured; and the remembrance of the tall dark figure of her worst foe, and the cringing crone who was evidently entirely at that foe's disposal, banished any cheerful ideas, and touched the scene with the pencil of a Dore, as it drew the weird fantasies which illustrate the Contes

Drolatiques of Balzac. The aspect of the watery way from the something serious had occurred. bridge became so sinister that I returned to reconnoitre the house once more from the street. To this impulse I owe, in all probability, the rescue of Mary, the presrvation of what was dearer to me than

The street was very silent and deserted, though it was yet quite early. A few people passed me, their sabots making an inordinate clatter on the rough stones; but when I paused close to the house there was in sight. I looked up. The light was still in the topmost window; the win- you. dow was again open. I determined to make an attempt at least to settle my stairs." doubts as to the identity of the occupant

I looked up to the window, and called softly and clearly.

There was no response. "Again I called with a little more em- learn, certainly, but has it the very

was anything but pleasant, as hotels or other places of entertainment for man and beast were seldom met with. On this account the government put up "Do you know who I am?" I asked apbuildings for the accommodation of The old woman grinned and courtesied. Europeans at many places, and called "I have been expecting Monsieur Plow-She evidently took me for the man she can be found in any important town had been told to expect. Tumultuous as my thoughts were, I could see no reason in India, but the dawk bungalows still remain, being conducted in the same for suspecting a "plant" so skillfully exemanner as originally. An agent, apcuted, under circumstances which were purely fortuitous. Heaven had put this pointed by the ruling authority of the neans of fighting the Basilisk into my district, manages the establishment, and is held responsible by the appointhands, and I resolved to make the most ing power. Any traveler can stop at a dawk bungalow if there is room for "Which lady, monsieur?" she asked with him. The manager assigns vacant apartments to travelers in order of priority of arrival, preference always being given to ladies. No guests can retain a room longer than twenty-four hours if it is needed for a new arrival. "She said she must see monsieur, but The charge for the occupancy of the she has leit a message for monsieur in case room is 1 rupee (about 36 cents) a day, "And the other lady—is she safe?" "Quite safe. She is in the top room, It was awful to think of Mary imprisoned in the power of such wretches. had moved out of the street, and were standing just inside the little entrance

and guests can have meals or not, as they please, and if they have them, at such hours as they please. A printed cards in each room gives the rules regulating the establishment, and a government scale of prices for food, wines, etc. On departing from one of these places guests are expected to enter the length of stay, amount charged and their impressions of the place. A dawk bungalow differs from a hotel in allowing guests a greater amount of freedom in regard to time of meals. Both places have about four and gun. The old hag came closer to me, and laid servants to wait on each guest, all of a finger on my arm, giving a sort of a dig whom expect a gratuity when the

Each one of these servants had his own particular work, and religious and caste prejudices would not permit either to do the work

"She might make a disturbance; but we of the others.—Baltimore Sun. The Pinsk Marshes. There is in Russia a district as large as Ireland, known by the above title, and wholly impassable from the size and number of its morasses, in addition to which it is covered with an I was so horrified by the disclosure of this | impenetrable forest of undergrowth and tangled jungle, and consequently was utterly useless. To make this vast extent of land available for the purposes of pasturage and agriculture. all that was required, apparently, was a thorough system of draining and clearing, as the land itself, as land, was found good for the proposed purposes. Accordingly, the Russian Government has gone to work with a will, and is now, and has been for some time past, energetically engaged in both these useful and important operations, and the work has been crowned with marked success. At present, 4,000,000 of acres have been reclaimed; and during next year it is proposed that 300,000 more shall be taken in hand by means of 120 miles of canals and dikes. It is further reported that upward of 600 .-000 acres of once useless bog are now nervous feeling and the effects of stimu good meadow land, whilst 2,000,000 lants at once. Every druggist keeps it. acres of impenetrable jungle have been brought into cultivation. In addition to all this, the engineers have built 179 bridges, sunk 577 wells, and surveyed and mapped 20,000 square miles of land. If such a scheme as this can be so successfuly carried out by Russia, why should not some such plan be tried in Ireland? A scientific contempory referring to this question says: "The amount of bog in Ireland would,

of course, be child's play to the Pinsk marshes, for somehow we are always confronted with bog as the chief source of Irish difficulties. If its annihilation will pay so well in Russia, it ought to do so equally in Ireland; nor should we forget that an undertaking of such magnitude would bring immediate and constant work from the very outset to half the able bodied population of the country." The suggestion is well worth the serious attention of all interested in the question of the prosperity of Ireland, and the profitable employment of her working population .-

Blunders in Society.

Chambers Journal

The wife of a Supreme Court Justice called on the wife of a Senator living on Capitol Hill Monday. The Justice's wife had her bonnet strings flying. "Excuse me, your bonnet is untied," said the hostess. "O that's tne style," said the caller, and the Senator's wife blushed to think she did not know the style in bonnet strings. This was not so bad a blunder as was made recently. A member's wife, wearing a camel's hair suit made of the most fashionable long haired goods, called on a Senator's wife. "O, Mrs. Smith," said the Senator's wife, "you have been walking near some horses, or perhaps it was a cat," and, suiting the action to the Mme.Delbruyck's hideous visage appeared. Word, she began to pick the hairs from her caller's dress. Blushes were mu-"Here, Marie," I said, "I want to speak tual when the explanation was made. -New York Sun.

French Lick Springs.

The completion May 15th, 1887, of the Orleans, West Baden & French Lick Springs Branch of the "Monon Route," brings the justly celebrated West Baden and French Lick Springs into greater prominence, and within an easy, delightful journey both to the wearied toiler, and the invalid. For a peroid reaching back them dawk bungalows, the Indian to anti-stage coach days when name for post-houses. To-day hotels cance regained his vigor by drinking the waters of "Dry Lick," as they were then called, these Springs have been favorably known for their permanent curative qualities, being remarkably efficacious in all diseases of the skin, dyspepsia, rheumatism, Liver trouble, Bright's disease, and in fact all chronic complaints where a powerful tonic, and alterative treatment is equired. In later days when the hardships were little lessened by stages, the locality became known as "French Lick Springs," after the creek into which the waters empty. Invalids endured every hardship to reach the Springs, and were amply recompensed by the almost instant relief afforded by these highly curative They are located about eighteen miles

northwest of Orleans, Ind., and the principal Springs are in two groups, situated about a mile apart, the group farthest northwest from Orleans being known as 'French Lick," and the other group as "West Baden."

The medicated water percolates into huge basins of whetstone formation, thence flowing between soft mossy banks to Lick Creek, and Lost River. At each group has been erected an elegant hotel capable of accomodating four hundred guests, and each hotel has been named after its respective group. The surrounding country is indeed a paradise for lovers of primeval nature, or devotees of the rod

Through tickets can be purchased to French Lick and West Baden Springs of any ticket agent. For special rates, and full description of the Springs, with analysis, etc., call on or address any agent of the "Monon Route," or, E. O. McCo mick, G. P. A., Adams Express Building

A Skin of Beauty is a Joy Forever.

DR. T. FELIX GOURAUD'S

Oriental Cream, or Magical Beautifier.

The following words, in praise of Dr. Pierce's Favorite Prescription as a remedy for those delicate diseases and weaknesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

John E. Segar, of Millenbeck, Va., writes:

"My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and one bottle of your 'Fellets.' I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to employ help for as about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I have laid as ide, and feel as well as I ever did."

Mrs. Sophia F. Boswell., White Cottage.O., writes: "I took eleven bottles of your 'Fellets.' I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to employ help for as about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I have laid as it ever did."

cians during the three years they had been practicing upon her."

Mrs. George Herger, of Westfield, N.Y., writes: "I was a great sufferer from leucorrhea, bearing-down pains, and pain continually across my back. Three bottles of your feat her the greatest price the little of the support of the support of the greatest earthly boon to us poor suffering women."

Mrs. May Gerson, of Nunica, Ottawa Co. Mich., writes: "Your 'Favorite Prescription' is the greatest earthly boon to us poor suffering women."

Mrs. May Gerson, of Nunica, Ottawa Co. Mich., writes: "Your 'Favorite Prescription' is the greatest earthly boon to us poor suffering women."

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, would disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

A marvelous Cure,—Mrs. G. F. Sprague.

Mrs. E. F. Morgan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians. I was completely discouraged, and so weak I could with difficulty cross the room using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-envelope for reply. I have received over four hundred letters. In reply, I have received over four hundred letters. In reply, I have escend letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS

Of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an army of different physicians, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for almost four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

THURSDAY, MAY 26, 1887.

AT the Presbyterian General Assembly in Omaha, last week, the committee on a monument to Calvin reported a lack of enthusiasm for the project among prominent clergymen and laymen, and recommended its abandonment. The report was accepted and adopted. Had the action been different it might have become necessary to cles on "Science and Immortality, erect a monument to Servetus.

THE daily papers report a touching "science cannot possibly teach or deny incident of the liquor prosecutions immortality." That is, the conditions away down in Maine, where a are too unlike; you can't measure man felt so bad at being re- thought with a yardstick. Science is quired to testify against a neighbor of the knowable and you can't measure sion; if you want the very whom he had bought a cheering bever- the unknowable by it. Prof. Lester F. age, that he went and drowned himself | Ward says that "so far as science can in a pond. The incident is rendered speak on the subject, the consciousness still more pathetic by the careful recit persists as long as the organized brain, you want a Life Insursoldier—and they dont even omit the l. science," Prof. Ward says, "is the imal of the fact that the man was an old and no longer." "The immortality of This melancholy relic of the war prob- mortality of matter and its motions in ably never heard of the plan adopted in | the production of phenomena,"and that Iowa and Ohio, where they kill the man | with them consciousness, the product who makes the complaint.

Lansing last week passed the two- nothing in science against immortality. cent railroad fare bill by the decided Prof. Asa Gray thinks the intervote of 65 to 16. There is no likelihood that the bill will pass the Senate. Free highest scientific consideration, that passes still repose in the pockets of all the theistic hypothesis is the best exof the legislative and judicial officers, planation of the facts, and that "imas abundantly appeared in the debate mortality is a probable, but not an unain the House; but the extreme solici- voidable inference from theism." Prof. tude of the Michigan Ceutral company not to violate the prohibition of the out of the pale of science, and he inter-state commerce law against the thinks the facts of science make it difissue of passes, has caused that com- figult to believe in the persistence of pany to recall the transportation issued personal consciousness after bodily on contract as merchandise to newspapers and actually paid for at a stipulated price in advertising. It is a beauti- ing wholly without the pale of science, ful example for the rising generation to see a great and powerful corporation, modern investigation has brought to which can do about as it likes, exhibitsuch veneration for the sacredness of and that if consciousness has been a law. It cannot, of course, be expected gradual development as is implied in that the legislative passes would be recalled until the session is over and life, it "seems difficult to assign any the danger passed. By the way: what | link in the series at which we can supare those passes issued for, anyway? Mr. Ledyard, the president of the as is implied in the passage from mor-Michigan Central, is unable to sell tality to immortality." Prof. E. S. traveling men's 1000-mile tickets for Morse writes: "I have never yet seen twenty dollars, because the law forbids anything in the discoveries of science discrimination; and he is unable to ful fill his contracts to give printers a support or strengthen a belief in imstipulated amount of transportation mortality." Prof. Cope seems to regard for a stipulated amount of advertising, because the law forbids free passes-it is all because of the restrictions of the the persistence of our personality. oppressive law. Why are his passes in the pockets of the members of the Senate, ing in science that should lead to disawho are now to act upon the two-cent | bility in immortality. Dr. Dawson, of

EXHUMED HISTORY. The magazines are now giving us some intensely interesting and valuable matter, in the results of eastern exploration. The Century for May had two articles upon Egyptian discovery. reciting the recent recovery of the mummy of Rameses II, the Pharaoh of the oppression, the "new king which knew not Joseph," and last summer Boulag Museum at Cairo. and his tace has now become almost as circulars, from newspaper advertising columns; and we know what were the features of the Pharaoh who thought to "deal wisely" with the children of Israel lest they should become more powerful than the Egyptians. The daughter of Pharaoh, too, who found the Hebrew babe hidden among the flags of the river, and had compassion on it, and adopted it and named it Moses-the Queen Nefer-ari-her mummy was also recovered in the same tomb, together with an immense amount of matter of the greatest importance to Egyptologists and to the historical accuracy of the Scripture narrative, and of the keenest interest to the general public. Those portraits bring that hard-hearted old Pharaoh before us as a real personage, to a degree never before comprehended, and we can even feel a certain sort of human sympathy with him, as a man of like weaknesses and like passions with ourselves, and doubtless no more cruel than we would have been in his circumstances.

Another line of exploration that has been pursued during the past three years on the site of ancient Susa, in Persia, is described in the June Har per. There the foundations and much of the walls, sculpture, and general architectural features of the royal palace of Darius have been exhumed, and the pavement and the decorated staircases trodden by the feet of Daniel, and of Esther at "Shushan the palace," a bare to modern eyes, and numbers of those clay and stone cylinders that composed the ancient libraries recovered-such as were consulted "in the house of the rolls" by order, of Darius to find the decree of Cyrus for rebuilding the temple, related by Ezra. These are most fascinating fields of research, and we hope the magazines will give us more of it.

TORONTO has been distanced in brutal and idiotic outrage upon editor O'Brien by the howling mobs of Kings ton and Hamilton, in both of which UNION BLOCK, - CONGRESS ST. cities desperate attempts were made to murder the intrepid Irishman in the streets, and with no effort on the part of the Kingston authorities to prevent A. it. He was struck with stones and severely injured, and at Hamilton he narrowly escaped with his life. The idiots have done more in three nights to solidify popular sympathy for O'Brien, and arouse popular condemnation for Lansdowne whom they think they are defending, than O'Brien himself could have done in a year, with all his eloquence.

Some one at Flint, calling himself "Republican Soldier," ventilates through the Free Press his objection to sired.

The Upsilantian. Gov. Luce's appointment of Col. Ain-ger as Adjutant General of the state First National Bank, Ypsilant Gov. Luce's appointment of Col. Ainmilitia, and grounds his objection upon the fact that Ainger was not a Michigan soldier. "All the service he ever saw was in Ohio regiments." Indeed! The Governor certainly made no mistake in preferring Ainger to that sim-

> Portland Oregonian. SCIENCE AND IMMORTALITY.

Register appears a series of brief artiseveral of them by eminent scientific men. Prof. J. P. Lesley holds that of the eternal activities of the universe, should not be confounded. Prof. James THE House of representatives at D. Dana soundly holds that there is pretation of nature not beyond the Joseph Leidy regards no question as dissolution. Prof. Simon Newcomb is "inclined to regard the question as lyproperly so-called," does not think light any new facts bearing upon it, the theory of the continuity of organic pose so great a break to have occurred which would in the slightest degree immortality as possible in spite of apparent evidence against it, but doubts Dr. B. A. Gould thinks there is noth-

McGill university, refers to the instinct of immortality in savage races as a "God-given feature of the spiritual nature yearning after a lost earthly immortal, and clinging to the hope of a better being in a future life." Dr. T. Sterry Hunt thinks that the "facts of modern science are rather contrary WALL PAPER of the Newest and than favorable to the doctrines of a future life." Nevertheless, he believes in a conditional importality, "the gift of God," but lacks time to explain hundred years ago, sat for his photo what he means. Dr. Alfred R Wallace says, Outside of modern spiritualism WATCHES, familiar as that of Napoleon. It greets to support the belief in immortality, as from the magazine pages, from book and though I consider spiritualism to be as truly an established experimental science as any other, it is not recognized as such." Dr. Asaph Hall thinks science gives no positive answer to questions concerning immortality, but that modern discoveries tend to strengthen the belief. Dr. Elliott Coues says "There is much in the discoveries of psychic science not only to support or strengthen the belief in im- Gunsmith, and dealer in all kinds of Guns mortality, but to convert that belief to knowledge." Herbert Spencer, according to Rev. M. J. Savage's recollection of a conversation with him, does not think evolution touches the problem of personal immortality either way, and he sees no satisfactory proof of the truth of the latter doctrine. President Barnard, of Columbia college, N. Y. says, "After mature reflection, it seems to me that science has nothing whatever to say to the question. The only basis of our faith in immortality must be found in revelation.'

A quotation from Huxley's article in the Fortnightly Review, December, 1886, raised the question whether the state of consciousness associated threescore-years-and-ten with the movements of countless millions of successively different molecules, can be continued with some substance which has not the properties of "matter and force." Huxley's reply is, "As Kant said on a like occasion, if anybody can answer that question he is just the man I want to see." In commenting on this and other notable expressions thousand years after Rameses, are laid of opinion which it publishes, the Register remarks, " If unanimity can be found anywhere in these articles, it is most nearly attained in the general concession that science cannot show immortality impossible.'

## The First Sign

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

#### Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparila, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, D. D. S., M. D., Greenville, Tenn.

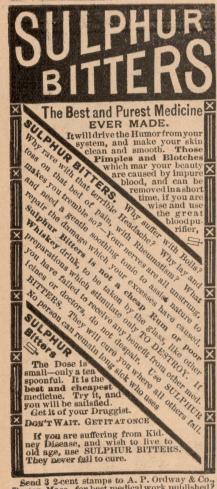

#### Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion scribe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Aver's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.

> A Ministerial Boycott. A well known retail merchant was in a bad humor one Monday morning. Enjoy Life.

> What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headashe, Costiveness, Nervous Prostration, Dizziness of the head, Palpitation of the Heart, and otner distressing symptoms Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents Try it. A friend said to him: "Charley, I am

afraid the preaching yesterday did not A Miraculous Escape from the Grave. I have been in poor health, with a

diseased stomach and liver, causing a cankered mouth continually for ten years ago last June. For three years prior to that time I had a severe pain in the region of my heart, at times seeming past endurance. It affected my shoulder, took all strength from my arm; could get no relief only by poulticing. My stomach being so diseased, my food caused me great distress. My age also seemed to be in the way of my recovery and not the least of my sickness. I employed the very best of medical assistance I could get while in Caro, this State, but little encouragement could I get. Was moved to Vassar, Oct. 1, 1885, on a bed, giving me every ten minutes a teaspoonful of brandy and ice with only a teaspoonful of nourishment at a time. I commenced bloating soon after arriving here, and had every appearance of dropsy. We called our Caro physician here, and he said my condition was worse than when in Caro. On the 27th of May last, we called a council of doctors from Vassar, three in number. All of them pronounced my case incurable. I had with the rest inflammation of the bowels, and I lay almost lifeless and one of the leading physicians said that if I could be restored to a sane mind again it would be all my husband might expect, and anything that would soothe me was all that could be done. My husband got me some medicine from Johnson & Williamson's, druggists, at Vassar, and commenced giving it to me, and in three weeks' time they began to put me in an easy chair, for a short time each day, at which time I had no use of my lower limbs and my back was numb; it was a little more than two months before I could walk without crutches. I am now a well woman, have walked one and a half miles within a month, can eat all kinds of food and enjoy it, have gained from 82 pounds, since last May, to 116 now. Could say more of my sickness, but delicacy prevents. I want to say to my friends that Hibbard's Reumatic Syrup and Plasters are the medicines th cured me. I used four plasters with the first five bottles; have used ten bottles in all and am well. If anyone who reads this has any doubt as to the authenticity of my statement, it will afford me pleasure to refer them to my neighbors all about here, as they are all astonished at my recovery. It is great family remedy Very Truly, MRS. CHESTER GAGE.

THURSDAY, MAY 26, 1887.

THE last of the Bohemians of Paris may be said to have passed away in the person

AMERICAN railroad securities are adwancing in London, notwithstanding the threatened attempt of British capitalists meled debt.

Numerous citizens of Wellsville, O., have devised a new plan to defeat the Dow electing officers, and purchased a large :amount of liquor.

IT was been decided that it is a violation of the law against importing labor under who may cross into the United States in the morning and return home in the evening from their work.

THE Minnesota high license law fixes the fee of all liquor stores in St. Paul and Minneapolis at \$1,000, and in other parts of the State at \$500. It goes into effect July 1. This gives those who can't "stand the raise" time to sell out.

THE Indianapolis baker who was boycotted for employing non-union men reports an increased patronage, and says he has nothing to complain of. The boycott has seen its day; or rather, it has not seen its day in this country and never will.

THE Bulgarian regents are said to contemplate proclaiming King Charles of Roumania Prince of Bulgaria. This would involve a virtual union of Roumania and the two Bulgarias. This project is said to have the approval of England and Germany.

A BETTER time will come all around when employer and employes can meet and agree with each other on the basis of mutual confidence and mutual interest. not lie along the line of fighting organizations, on either side.

A PREMIUM of over 3 per cent. which is offered now for British consols, is something notable in finance. The interest which these securities bring is itself but 3 per cent. This shows what a nation which enjoys good credit can do in this age of abundant cash.

THE Pope has approved some of the plans submitted by Cardinal Gibbons for the proposed Catholic National University. He believes, with the American bishops, that the administration of the university should forever remain in the hands of prelates, and leaves the question of location open.

A PLAN is on foot at Lima, O., to or- it is believed but little damage done. ganize a producers' oil exchange to oppose the Standard Oil Company. The leaders claim that under the Inter-State Commerce Law they could obtain equal

---Mr Twirgren, United States Consul at Kingston, Canada, in a letter to the Department of State claims that under the Inter-State Commerce Law freight Arkansas, and hanged by a mob of will be held at Decatur, Ill., July 30 to have been increased from 25 to 100 per cent on lines doing business into Canada, and that the result has been demoralizing

Mins. U. S. Grant has received another check for \$33,384.53 from the publishers of 'General Grant's Memoirs", making \$394,459.53 so far received by her. General Grant's fame as a soldier will only be equaled by his success as an author. Mrs. Grant has recently been seriously ill of diphtheria, but is now out of danger.

GENERAL BOULANGER'S plan for an "experimental mobilization" of the French army next October, has, of course, created a stir at Berlin. It is announced that, if France mobilizes, Germany will do likewise-which means, plainly enough, that Boulanger's "experimental" foolishness.

ARCHEISHOP CORRIGAN, of New York, in a public address denounced Henry George's land theory as "a fallacy against both philosophy and common sense, and as against the teachings of the Catholic Gov. Foraker was notified. Church". He also stigmatized as an "error" of faith and morals.

Some time ago a New York paper published a sensational story of alleged hardships and indignities inflicted upon the O'Brien's attempted address at Toronto, Apache captives at Fort Pickens, Florida. Ont., and the proceedings narrowly es-A report just submitted to General Sheri- caped ending in a riot. dan by the Inspector General of the Atfantic says the captives occupy clean and surrendered himself to the police on Tueswholesome quarters and are docile and day, acknowledging to having violently asabedient. ## Latest From Lansing.

SENATE. There was comparatively little business transacted in the Senate on the 11th. The Senate, among other items of business, confirmed the Governor's appointment of the jury commissioners of Wayne county. A committee of Prohibitionists waited on the License Committee and uged them to investigate and recount the yotes cast at the last election. They claim that Prohibition wou'd prevail if the votes of persons intimidated were thrown out.

Business was slow in the Senate on the 12th, owing to the interest felt by members in the House proceedings on the high license bill. It however, passed three local bills, and considered a number of small and unimportant bills on the committee of the whole There is considerable interest felt in egard to the petition for a recount of the votes in the late election.

The Senate spent the greater part of the 13th, in consideration of a new set of rules just reported by the committee on rules and joint rules. The Senate passed House bills making an approoriation of \$18,000 for the purchase of dditional land for the Michigan Insane Asylum; bill making an appropriation of \$104,000 for the current xpenses of the State Reform School or 1887. The Senate Judiciary Committee will have a hearing on Hosford's libel bill at 10 a.m., on the 17th. It s expected that the consideration of this bill will be completed at that meeting. The Senate adjourned until the afternoon of the 16th.

The Senate on the 16th transacted very little business. It passed a bill amendatory of the Bay City charter,

The Senate held two sessions on the 17th, and passed the following House bills: To authorize the willage of St. Johns, Clinton county, to borrow money for the construction of water works; to change the fiscal year from September to June 30; to enlarge the ing plan. powers of township officers in the town of Republic, Marquette county; to States signal service station, fund sufamend the charter of Detroit City relative to street grading; to raise the age ing been raised. of protection for females to 14 years; to authorize the trustees of religious societies to receive money by gift and bequest; also the Senate bills incorporating the village of Ironwood, Gogebic county; to reincorporate the village of Fremont, Newaygo county; to amend the act reincorporating the village of Three Rivers, St. Joseph county; to amend the laws relative to the fees of appraisors and commissioners upon estates of deceased per-

#### INDUSTRIAL.

Some of the tobacco raised in England last season sold for a half penny per pound, and some could not be disposed of to manufacturers at any price. It will probably be used for killing vermin on sheep and fowls or for fumigating green houses.

Flour spoils very easily. During the months from October to April but little change takes place in good flour, but from spring to August a fermentation is earried on, which gives rise to an offensive odor, and which, once started, progresses throughout the winter following.

When screwing up the nuts on the end of a rod it often so happens that the rod will turn with the nut. To prevent this the nut on the other end of the rod must be kept from turning -Monroe gardens are full of blos- the first mentioned nut is serewed on.

Seth Green states that success in fish raising can not be acquired by the reading of a book any more than skill building improvements in Vassar this in watchmaking can. Many facts can be learned, but experience is needed to enable one to raise fish. He recommends that operations be commenced on a small scale, and that the Business be extended as ones knowledge increases.

Bruises may be taken out of the wood of scientific instruments by wetting with warm water. Then lay on the place brown paper about five layers thick, and apply a hot flat iron until the moisture is evaporated. If the bruise is small, merely soak it with firm of A. W. Westgate & Son have warm water, and apply a red hot poker just received a dividend of 25 per very near the surface. Keep the wood wet and in a few minutes the bruise

A paper devoted to mechanical affairs says a fortune is awaiting the inventor of a lamp or lantern that can be fastened to the front or dashboard est old farmer of New Haven, Gratiot of a wagon or to the breast of the constructed that the light will not be extinguished by the wind or by jars. caused by going over rough ground, and it must be reflected for some distance in front of the team.

A cotton picking machine has been patented by Mr. John C. Johnson, of Douglasville, Ga. The box or frame of the machine is in two parts, between which the rows of cotton plants pass, and barbed fingers which rotate norizontally project into the plants on each side and pick the cotton, which is then stripped off and delivered into a suitable receptacle, the mechanism for operating the fingers constituting the chief feature of the invention.

Some observations made in France by M. Cosson may throw light upon many mysterious fires. In one instance spontaneous fire arose from an air current heated to 77 degrees Fahrenheit, only. The wood slowly carbonized at that temperature, and, being thus rendered extremely porous, a rapid absorption of oxygen resulted, and sufficient heat was then produced to inflame the dry material. In another case the warmth from the air hole of a stove

was sufficient to set fire to wood work. When files have become clogged with oil and grease the best plan is to boil them for a few minutes in some strong caustic soda water. A little scrubbing with an old tooth brush will e beneficial before rinsing them in boiling water and drying before the ful to fine work, can be removed by a

dry, or oil when that may be applied. Prof. Hodifiess, of Germany, has showing the influence of electricity on the growth of roots, Plates of copper were thrust upright into the earth and His feet were blistered and bleeding, connected by wire with similarly placed zine plates about one hundred feet distant, an electric battery being thus formed, with the earth between such copper and zinc in the circuit. Both potatoes and beets, planted between such plates, gave an increasing yieldbeets 15 per cent.—as compared with

other parts of the same field. To keep flannels as much as possible from shrinking and felting, the following is to be recommended: Dissolve one ounce of potash in a bucket of water, and leave the fabric in it for twelve hours. Next warm the water, with the fabric in it, and wash without rubbing, also draw through repeatedly. Next immerse the flannel in another liquid containing one spoonful of wheat flour to one bucket of water, and wash in a similar manner. Thus treated, the flannel becomes nice and clean, has barely shrunk, and almost

not at all felted.

The cause of the fertility produced in fruit trees by bending the twigs at an acute angle has been investigated by Prof. Soraner. He finds that the bark of the lower surface of the twig, below the bend, is thrown into transverse folds, here and there detached from the wood. New woody tissue is formed in these cavities, which is filled with starch grains, and after this there is a formation of new woody tissue of a normal character, but al ways thicker there than elsewhere, and especially on the convex upper surface. The mass of woody tissue checks the flow of water toward the tip of the branch, to the great advantage of the bud directly beneath, which is thus more likely to develop as a fruit bud.

The question of how to prevent checking in the ends of timber when it is being seasoned is engaging the attention of English engineers. According to a recent report, it has been ascertained after trying a number of experiments, that by painting the ends of the timber with thick glue several kinds of lumber can be dried without checks. It is supposed that the glue penetrates far enough to cement the layers of the wood together near the ends, and thus keeps the ends from drying faster than the rest of the wood. Of course this method requires seasoning under cover, since rain may have the effect of dissolving the glue.

Capt. Mackenzie, the chess champion, played twenty-four simultaneous games in Baltimore Saturday night, and won twenty-one. Two were drawn and the other was lost by the captain because he moved too quickly.

M. Coquelin, the Parisian actor, has been presented by Queen Marguerite, Lake & River Improvement Company; much, although the money was voted of Italy, with a splendid pin in diamonds and sapphires.

- THE OLD BROW SCHOOL HOUSE. It stood on a bleak country corner,
  The houses were distant and few,
  A meadow lay back in the distance,
  Beyond rose the kill to our view.
- The roads crossing there at right angles, Untraversed by pomp and array, Were cropped by the cows in the summer, I've watched them there many a day
- In memory's hall hangs the picture, And years of sad care are between: It hangs with a beautiful gilding, And well do I love it, I ween It stood in a bleak country corner,
  But boyhood's young heart made it warm;
- The teacher, O well I remember; My heart has long kept him in place; Perhaps by the world he's forgotten; His memory no touch can efface.
  He met us with smiles on the threshold,
  And in the rude temple of art
  He left, with the skill of a workman,

Twas cheerful in winter and storm

- His touch on the mind and the heart. O, gay were the sports of the noontide, When winter winds frolicked with snow; We laughed at the freaks of the storm-king
- And shouted him on all aglow.
  We dashed at his beautiful sculpture,
  Regardless of all its array:
  We planged in the feathery snow drifts, And sported the winter away.
- We sat on the old fashioned benches, Beguiled with our pencil and slate; We thought of the opening future, And dreamed of manhood's estate.
- O, days of my boyhood I bless ye, While looking from life's busy prime; The treasures are lingering with me I gathored in life's early time.
- O, still to that bleak country corner Turns my heart, in weariness yet,
  Where, leading my gentle young sisters,
  With youthful companions I met. I cost a fond giance o'er the meadow; The hi is just behind it I see;
- Away in the charm of the distance, Old school house, a blessing on the -REV. DWIGHT WELLIAMS.

DOMESTIC ECONOME.

There should be colleges of domestic economy for girls, where the proper undoubtedly influence in some degree preparation of food, care of the health the quality of the milk. Noxious and and dwelling, and household thrift effete neatters may thus find escape should be taught. The State should from the inflamed organs of the cow make attendance at these colleges taminate in still another way this life profitable, compel, it if necessary, and supporting fluid. #### Dear, Sweet, Thoughtful Girls.

Four girls once went fishing. They selected a very rainy day, and they had all their water-proof cloaks and head and feet covering. They were all by themselves when they took a boat and went to fish. It was in Maine. With true feminine earnestness they started off without anything to put the fish in. They had an elegant time until they caught a pickerel. When they caught the pickerel they didn't know what to do with it. was alive and flopping. They had it in the bottom of the boat. They wondered why it didn't lie quiet. At struck one of them.

lying in the rain." And she whipped off her water-

of the four caught a pickerel, and each of the four wrapped it up in her through to the skin, but they kept | tinually of those that are gone. their fish dry all the same. - San Francisco Chronicle.

#### Womans Sphere.

Lady Wilde, mother of the esthetic apostle Oscar, writes in the current issue of the Queen: "For warmth of passion, intensity of feeling, and an analysis of all the subtle harmonies and discords of our complex human nature, we must study the work done by a woman's hand. To men we leave science and philosophy, but women reign supreme in the world of imagination. Men are lords of intellect and knowledge; but for the delineation of feeling and sentiment, of grace and tenderness, the heroic devotion and sublime self-sacrifice, which is the true feminine instinct, no pen can equal that of a gifted woman, with her eyes of light, her soul of flame, and her lips touched with the seraph's fire."

Editors in all parts of the country to accommodate an expected rush of

#### GATHERED EPITAPHS.

Here lies our joy end hope, Little Willie Zeilars, He climbed the heavenly stairs By falling down the cellar's.

Sleep love, at rest from storm and strife, A loving father, a husband dear,

In peace is sweetly sleeping here; He leaves a mourning family Beneath this stone lies Mike O'Farrel. He blew into a shotgun barrel, When on a sudden it exploded— He did not know that it was loaded,

And he went off with it. Dearest Susan thou hast left me,

Though you went off in a fit; You are now among the angels, And 'tis sweet to think of it. Here lies a man of great renown, The greatest liar in the town;
To fish he greatly was inclined,
And had a most expansive mind.

My dear fond wife, sleep on,

Cucumbers three did not agree With little Johnny Hickle, They filled him up with aches and pains

I would not call thee back; I miss thee since thour't gone— Indeed this is a fact. Beneath this slab lies Miser Strong, Not very much he took along; But then we're sure that Uncle Jake

Took just as much as one could take. Under this monument behold A man whose heart was set on gold! To grind the poor he always tried, And from a stroke of conscience died.

#### NATURE'S QUEEN.

'The rose is pre-eminently the flower of love and poetry, the perfection of floral beauty, and with its dainty coloring and exquisite fragrance, "the sweetest flower full nature yields."

Poets of all ages have sung the praises of the rose. It has been woven into crowns, heaped into beds, twined inthe festivals of Bacchus, as well as all cup of nectar upon it, and it became as an object of comparison with the loveliest work of nature. "As soft as a rose-leaf,, "sweet as a rose," "rosy dened it, and it has ever since rocheeks," "rosy dawns," "rosy clouds," etc.

Solomon calls it "the rose of Sharon," parison. "The wilderness and solitary place shall be glad for them, and the desert shall rejoice and blossom as the rose."

The Greeks dedicated roses to the goddess Aurora, and the Romans were said to be passionately fond of them. As late as the sixteenth century they were always placed over their cenfessionals as an emblem of strictest priva-Satins are going out of favor, and ey, accompanied by the mottosub rosa. They were at great expense to procure them in the winter, and it is said that thus beautifully given us: Nero spent 4,000,000 of sesterces(nearly \$150,000) for roses at one supper, while the Turks cannot bear that one rose-leaf should fall to the ground, because many believe that the first rose sprang from the blood of Venus.

At these feasts of roses, the flower of the great hall, or open-fronted "talar," is spread in the middle with roses, forming the figure of cypress trees. Roses does treble duty as a comfortable gar- decorate all the candlesticks, which are very numerous. The surface of the "hawz," or reservoir of water, is completely covered with rose-leaves, as

In the East, particularly in Persia, the rose flourishes in great beauty. One of their most famous works is called "The Garden of roses," from which we gather, that every year a festival is held there, the "Feast of the Roses," which lasts all the while they are in bloom.

And all is ecstasy now.
The valley holds its feast of roses. That joyous time when pleasures pour Profusely round, and in their shower Hearts open like a season's rose.

There is no country in the world where the rose grows in such perfection as in Persia. The gardens and courts are crowded by these plants; rooms are oramented with vases filled with gathered branches, and every path strewn with the full-blown flowers. And added to the scent of the roses is the nightingale's wild and beautiful ly open or fatally lock the door of notes, which increase at the unfolding of their favorite flowers. Tradition only desires the rose.

"Though rich the spot, With every flower this earth has got, What is it to the nightingale

If there his darling rose is not?" The finest roses are all brought from the East, where they are raised sistent effort to make life all that is in great quantities, as an article of possible in attainment, how absurd to commerce. Ghazipore may be called ever become a mark of distinction in "the rose-bed of India." For miles the world. If friendly counsels were not about the town are continued gardens constantly disregarded, if paths of of roses and the sight is said to be temptation were shunned, if bad comdazzling-a carpet of mingled green pary was avoided, if the first social last a happy and benign thought and red, and the air laden with sweet- glass was never drank, if saloons were est odors, which are wafted far across never entered, if the yawning abyss of "Poor thing! it's getting all wet the river Ganges. This vast cultivation dissipation was not continually engulfis for the manufacture of rose-water, ing innumerable victims, how different which is in such great demand. The would be the record of countless lives. proof and wrapped it up in it. Each colors range from the most delicate pink to deepest crimson, purest white to a brilliant yellow, and though fading waterproof, and the rain wet them quickly, fresh buds fill the places con- on record have taken place in February

rose has always been an ecclesiastical Park.

emblem, and even in heathen days was regarded as a mystic flower. Rome has made good use of the flower, and rosaries, no doubt, originated from that word. The beads of the Monks were said to be made of rose-leaves.

tightly pressed into round moulds, The 'bed of roses' is not altogether a fiction. The roses of the Syrian Nile, or "garden of the Nile," attached to the palace of the Emperor of Morocco, are unequalled, and mattresses are even made of their leaves for men of rank to recline upon.

In Italy, during the month of May

has become quite national. Everybody has roses on the oratory, or table, the whole mouth through, and even the during that month.

As an emblem of the Virgin, the rose, both white and red, was especially recognized by St. Dominic, when he nstituted the devotion of the rosary. The prayers even seem to have been

The traditions connected with the coses are legion. The white rose is especially associated in some countries with the Virgin Mary, being chiefly chosen for her fete days. The "rose of Jericho" has been called "St. Mary's rose," and tradition tells us, that in the flight into Egypt, one of these flowers sprang up in every place where they rested, and on account of its expanding when in contact with moisture, it was believed that it opened its petals on the anniversary of the birth of Christ. In mediæval times the white rose was

called "Rosa Maria," or "Mary's rose. Formerly red roses were the most ighly prized. In Devonshirea blooming lass was said to look like "a double red rose," and this was proverbial for what was blooming and gay.

Various traditions account for the color of the rose. According to one. the rose was originally white, until to arbors, adorned the goblets devoted to | Cupid dancing among the gods, upset a Cream laces trim poppy red /lia styles of sculpture, each beauty used red. Another says that Venus pierced her feet with a thorn, and a white rose growing by, a drop of blood fell upon the flower, and by the contact redmained so.

> White was the native rose before the change Which Venus, blood did on its leaves im

Every country has its wild roses. renerally single and with five petals. As it becomes cultivated the number of petals increase. The sweet briar is one of the most dainty of all the wild flowers we have, and wherever it grows makes even the wilderness places rejoice in its blossoming. Some legends tell us that the Crown of Christ

was made of sweet briar, "Men saw the thorns on Jesus' brow,

But angels saw the roses. But the most beautiful of all the roses is the one so daintly attired in moss. The origin of its mossy nest is

"The angel of the flowers one day Beneath a rose tree sleeping lay;
That spirit to whose charge was given
To bathe young buds in dews from heaven,
Awaking from his light repose, The angel whispered to the rose-

"'O fondest object of my care, Still fairest found where all are feir, For the sweet shade thou'st given to me Ask what thou wilt, 'tis granted thee.' Then said the rose with deepening glow,

#### I was but a moment; o'er the rose Could there a flower that rose exceed?

"The spirit paused in silent thought

That Little "if." No word in the English language is Youth's Companion. freighted with so many emanating

issues as this little word o two letters. It is the uncertainty upon which depend the manifold vicissitudes of a changing life immensely affecting not only individuals but nations, even life and death being sometimes dependent

upon it. Often so lightly uttered, as if unimportant and trivial, yet what momentous consequences may emanate from it, not always immediately resulting, perhaps of gradual evolution, yet none th less sure of results. #### THE CAMP FIRE.

Twenty-eighth New York Volunteers,

THE FIRST VOLUNTEER. Captain William Wirt Bush, of the

said to be the first volunteer in the war of the rebellion, died in Buffalo, N. Y., April 19, 1887. Captain Bush was born in Lockport, N. Y., Aug. 31, 1832, and spent much of his early life on the Erie Canal, associated with his brother. In 1861, when the dissolution of the Union was threatened, he resolved to be the very first man to volunteer in defense of the old flag; (the Madonna's month,) the use of roses and when President Lincoln's first call for troops was flashed over the wires, April 15 of that year—an event which Bush had confidently anticipated—the servants make it a matter of conscience latter was in the telegraph office when to spend their money on these flowers the news was received. He had prepared papers ready for enlistment, and no quicker was the word announced that soldiers were wanted than he enrolled himself as a volunteer and obtained a reccuiting office and went to work to organize a company, a task symbolized as roses. So that "up to which was soon completed. Captain heaven itself their balmy sweets as- Bush carved for himself a brilliant record as a soldier, whose bravery and zeal in behalf of the Union was attested to by his superiors in various commands. Among those from whom he received personal tributes and praise were Lieutenant General P. H. Sheridan, General O. O. Howard, General A. S. Williams, General James Shields and others. He was several times wounded during the war, was a prisoner at Staunton, Va., in 1862. confined in a cell 12x14 with fourteen others. Captain Bush's claim to being the first volunteer for the Union in 1861 was recognized by Congress in a report to that body, likewise by the soldiers and sailors of the United States, who presented him with an elegant and costly gold badge six inches in length. The heading is an elaborately chased piece of gold, composed of eleven flags with stars set in blue enamel. Upon this is an eagle with spread wings; underneath is a scroll with the words: "Presented to William W. Bush, late Captain Twentyeighth New York Volunteers, for being the first enlisted man in the war of the rebellion, U.S.'

IN A PERILOUS POSITION.

Gen. Lilley, who fought under Gen. Jubal Early on the Confederate side. has been visiting friends in this city. The General lost an arm at the battle of Carter's Farm in 1862. He says that when he was struck by the bullet he fell among some rocks. While: lying on his back in a perfectly helpless and weak condition a huge rattlesnake crawled on his breast, and, when half-way across, stopped. Then his snakeship stretched his head on a flat stone and curled his rattles on the other side of the General. Several wounded men on their way to the rear came along, and he did not know what to do to attract their attention. If he shouted it would arouse the reptile to pernicious activity. There he was, wounded by a Northern bullet and held a prisoner by a snake. He finally mustered sufficient strength to raise his unwounded arm, and one of the soldiers saw the signal. He approached and on getting near the prostrate officer saw the horrible situation of affairs at a glance. He walked a short distance back, picked up a sword from the side of a dead Lieutenant, and, creeping up slowly behind, cut the rattler in two. "I suppose," said Gen. Lilley, "the rattlesnake was across my breast for fully half an hour. I was too weak from the loss of blood to move a limb, and what breath was left. in me was kept at a very low ebb, so

as not disturb the reptile."-New York. ITEMS.

#### General Observations.

The Ann Arbor Argus regrets that "Brother Smythe of The Ypsilantian" was not invited to participate in the Kirmess recently given there, and credits the aforesaid "Brother Smythe" with the observations recently given in The Ypsilantian on the high art features of Ann Arbor's latest affliction. If the Argus wishes its brotherly designs on the individuals that irrigate the intellectuality of this community to receive any recognition whatever, it must not attempt to deprive us of the security that being permitted to say "the other fellow wrote it," gives us. "Brother Smythe" didn't write the Brother Smythe. You never had a purpose Brother Smythe.

Belleville and Plymouth don't speak now as they pass by. The cause of their coolness is that Plymouth has been chosen as the place for holding the Memorial Encampment, after Belleville had been given reason to believe that it would again secure it.

Detroit is standing on its tiptoes just at present, watching with maternal its base ball club, in the direction of sun-rise. Detroit, by the way, is rapidly sun-rise. Detroit, by the way, is rapidly achieving both fame and notoriety. It has the best base ball club, and is the passed the House. It is assured that has the best base ball club, and is the most miserably governed city in the union. Its vote on the prohibition amendment, and the manner in which the overwhelming vote against it was secured, has made the word Detroit synonymous with trickery and dishonest methods. One section of the city is principally inhabited by Poles, whose chief occupation during the past winter and spring has been to congregate in howling, murderous mobs, to which the police authorities of the city have offered no effectual resistence Men have been killed, women insulted and the laws relating to personal and public rights openly defied from first to last. And yet the inhabitants of the aristocratic sections of Fort street and Woodward avenue hold mutual admiration meetings and congratulate themsemselves over the growth and development of art, and fondly imagine their old town to be a law-abiding, hightoned

An Episcopal diocesan council was suddenly thrown into confusion at Omaha, one day last week, by the somewhat unusual remarks of a Rev Mr. Pearson. Mr. Pearson is evidently theory, the doctrine of the real presence of God upon the altar in the form of bread and wine, and he vigorously denounced the belief and teaching of such a theory as blasphemous and idolatrous. A Rev. Mr. Williams arose and denounced Mr. Pearson, and accused him of having insulted members of the church by branding as idolatry points of belief held by them as the most sacred features of religious life. We haven't heard how the matter was finally settled. We trust we will not seem to lightly speak of what some of our readers may regard as a sacred matter. when we say that in our opinion the reverend gentlemen are displaying about as much judgment in quarreling over the theory of transubstantiation as do children when they dispute as to whether or not the moon is made of green cheese. The question has been a source of dispute and quarrels among nations, churches and families for centuries, and it has not yet reached point that you can tell by the life and character of a man whether or not he believes in the doctrine of the "real presence."

The Ann Arbor Register published the names of the candidates at the recent election in its city as Jones and Brown and Smith, or whatever the last name happened to be, deeming, as it afterwards explained, the, the publication of full names as the means employed only by the newspapers of small towns to fill up their columns. An illustration of what the Register regards as the real article of news, genuine big-town news, is being presented by its giving editorial time and space in airing the grief of its business manager over his failure to secure a job of printing which the wicked Courier secured. If the matter continues to increase in importance in the eves of the Register management, as during the past two weeks, the next installment of the harrowing recital may be expected in supplement form, accompanied by illustrations and diagrams. Better repress your sneers over the methods of papers in small towns in the future, hadn't

Capt. Manley came to the conclusion that the other boys in the Legislature were not playing fair, last Saturday, and he forthwith threatened to take his little dishes and go home, if they didn't behave themselves. Mrs. Manley had probably instructed the captain what to do in case anybody sought to impose upon him, and her instructions were as faithfully followed as were her former words of wisdom directing the member from Ann Arbor how to vote and work on the equal suffrage bill.

#### A Model Family Record.

Mr. Warren Pattison has been appointed agent in this city for a publication as original and new in the book line as it is valuable and desirable. It consists of about 250 handsomely ruled and illuminated pages, with blanks so indexed and arranged as to make the compilation of a complete family record an easy and agreeable pastime for leisure moments. Pages are provided for recording all the events of interest and importance in the histories of familes and the lives of individuals, and the possession of the book will induce the transmission to its pages of events and dates and impressions that will cause it to become a precious family possession. The book is elegantly bound, and its pages consist of fine, article referred to. We never heard of heavy paper, especially adapted to their

NOTIONS AND RESOLUTIONS.

NOTIONS AND RESOLUTIONS.

By Ald. Deubel—

Whereas, The Common Council of the City of Ypsilanti did on the 18th day of April 1887, pass a resolution that they deemed it advisable to vacate a certain alley in said city, running from River street to Lincoln street, and bounded north by lands of the M. C. R. R. Co., and south by lots 80½, 62, and 72 Hunter's addition to the village (now city) aforesaid; and, Whereas, said Council have, pursuant to said resolution, met at the time and place named in said resolution to hear objections, if any, thereto; and,

Whereas, said resolution was duly published not less than four weeks before the time appointed for such meeting; and, whereas, no objections have been made to vacating said alley; therefore, Resolved, That said alley be, and the same is, hereby vacated.

is, hereby vacated.
